OBJECTIVE

Aspiring Full-Stack Developer with strong foundations in web and software development. Passionate about building scalable, user-friendly applications and gaining real-world experience in front-end and back-end technologies. Eager to contribute to collaborative projects and deliver impactful solutions.

EDUCATION

B.Tech in Computer Science , Lakshmi Narain College of Technology	Expected 2026
Diploma in Computer Science , S.V. Polytechnic College	2020–2023
Secondary Education (10th) , St. John Higher Secondary School	2019–2020

SKILLS

Frontend: HTML, CSS, JavaScript, REST APIs

Backend: Python, Django, DRF, MySQL

Tools: Git, Postman, VS Code, IntelliJ IDEA

Soft Skills: Problem-Solving, Critical Thinking, Teamwork, Adaptability, Leadership

EXPERIENCE

Currently a fresher with strong knowledge in web development and software engineering. Hands-on experience through multiple personal and academic projects, with an emphasis on full-stack development and problem-solving. Actively improving skills through coding challenges, open-source contributions, and collaborative projects.

PROJECTS

College Management Website

(Django, Python, MySQL)

Web portal for managing student attendance, results, and academic records.

- Implemented role-based access for teachers and students to ensure security.
- Designed database models in MySQL for efficient storage and retrieval of records.
- Deployed on Render for real-time usage and accessibility.

Live: college-management-qain.onrender.com

DSA Learning Platform

(Django, Python, HTML/CSS)

Educational website for learning Data Structures and Algorithms.

- Structured content into interactive modules with problem-solving exercises.
- Added user progress tracking to monitor learning milestones.
- Designed responsive UI for both desktop and mobile users.

Live: dsa-learning-website-2.onrender.com

MindfulChat – Mental Health Chat App

(Django, REST API)

AI-powered chat application for emotional expression and stress relief.

- Developed chatbot for supportive conversations and journaling.
- Integrated guided activities like breathing exercises and stress-relief tasks.
- Built using Django REST Framework backend with a responsive web interface.

CERTIFICATIONS AND ACHIEVEMENTS

Python & Django Developer Internship – Cyber Law Pioneers Pvt. Ltd. (Feb 2022 – Mar 2022)

- Completed hands-on training in Django, Python, MySQL, and backend fundamentals.
- Built CRUD modules, worked with Django models, templates, and routing.

IBM SkillBuild Certifications:

- Data Analysis with Python – Coursera
- Python for Data Science
- Data Analysis with Python
- Python for Machine Learning: Unlocking the Power of Artificial Intelligence

LEADERSHIP

- Led a team through the complete lifecycle of a major project, from planning to successful execution.
- Collaborating on a startup project, contributing to both technical development and strategic planning.
- Organized cultural events in school and college, handling logistics, coordination, and execution.
- Initiated and facilitated peer-led study groups focused on coding, software development, and interview preparation.
